REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not teach a lens protection mechanism, comprising: a rotating transparent disc; and at least one counter rotating object whose rotation substantially cancels out angular momentum caused by the rotation of the disc. For example, while chiappetta teaches at least one counter rotating object whose rotation substantially cancels out angular momentum caused by the rotation of a disc, it does not teach that the rotating disc is a transparent rotating disc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
